Just shy of 1,700 square feet, the Willow Duplex floorplan proves that good things come in small packages. This home offers the convenience of first-floor living in a 2-story design. A well-appointed kitchen with an island and breakfast area anchors a spacious first floor with a generous primary suite and a walk-in closet. The second floor boasts two bedrooms, a full bath, and a loft perfect for a kid's play area or sitting room to enjoy a good book. Available upgrades include an alternate kitchen, double-bowl vanity in the primary bath, or finishing the basement for a perfect place to relax and entertain friends and family.
