The Logan is a thoughtfully designed 2-story new home from Berks Homes, offering an open floorplan built for everyday living. As you enter through the front porch and foyer, the heart of the home unfolds ahead, where the kitchen, breakfast area, and family room flow together effortlessly, creating a central gathering space for family and friends. A large walk-in pantry keeps the kitchen organized, while a mud room off the garage entry helps keep everyday clutter in check. Rounding out the first floor is a flex space off the foyer, ready to become whatever you need—home office, playroom, or hobby room—along with a convenient powder room.

Upstairs, the spacious Owner's Suite offers a private retreat with a large walk-in closet and en-suite Owner's Bath. Three additional bedrooms, a full hall bath, and a versatile loft—perfect for movie nights—provide plenty of room to grow, while the second-floor laundry room adds everyday convenience right where you need it.
