The open kitchen, breakfast room, and family room create a stunning and functional living space for all homeowners, and the first floor also includes a den and flex room, offering additional room for work or leisure. The primary suite features 2 walk-in closets and a private bath, providing a retreat for homeowners, and three additional bedrooms, two full baths, a laundry room, and a convenient storage room complete the second floor. With options to add a first-floor bedroom and full bath, choose from multiple alternate kitchen layouts, incorporate a morning room, add a loft, select from various primary bath upgrades, and finish the basement, you have the freedom to personalize this new home to your exact specifications.
